Experience (9.5 years as a design engineer)

PASL Windtech Pvt. Ltd. ,Vatva, Ahmedabad

Leading manufacturer of Cast and Machined components, Manufacturer of Plastic Injection Molding machine from 110 to 880 Ton capacity.

I have joined the company as an apprentice engineer in march 2012 to June 2012 and then promoted as trainee engineer (Design) from June 2012 to February 2013.

Currently I am working as a design engineer in injection molding machine department since February 2013.

Job Responsibilities :

Assigned with responsibilities of creating complete CAD model of injection molding machine from start to end.

Assigned with creating CAD models, dimensional drawings, assembly drawings of machine, Bill of materials and checking the same made by team members before delivered to manufacture. Also update the same by having feedback from stakeholders if required.

Responsible for designing the fabrication components like base of machine, hydraulic oil reservoirs etc.

I am responsible for control and assurance of right revision of drawings to be available with suppliers.

I have prepared codification system for purchased items required to implement the ERP system for IMM.

I have prepared the system for keeping WTG generation record and analyzing the machine behavior from machine control data of our wind turbine generators located at eight different locations.

I am representative of design department, Assembly, Maintenance dept. for ISO certificate auditing done yearly by auditing agency.
