SUMMARY

Passionate Public Health worker with more than 10 years of experience in multiple public health projects. During all these years I got precious opportunity working in different role from grass root level to state unit office. My work helped me to learn problem solving methods, mid-level management, innovative ways of team building, techniques of supportive supervision and mentorship. During all these years learned about the advocacy with the government departments, developing network with the various stake holders and community consultation.

EXPERIENCE

STATE PROJECT COORDINATOR, 05/2021 - Current
Alliance HIV/AIDS India, Ahmedabad, India

- Since Private Sector Engagement Project newly launched in Gujarat State, established it in last two years.
- Brought all main stake holders Indian Medical association, District IMA Bodies, Management of Private Medical colleges, Gujarat State AIDS Control Society officers on board, educated them about project deliverables with series of engagements and numbers of sensitization programs.
