144, Shrawak ni moti sheth fali, Viramgam

Contact Number:- +918671856827

parthrvl510@gmail.com

### **Career Objective**

To secure a challenging position where I can effectively contribute my skills as a civil engineer.

### **Education**

#### **Silver oak college of Engineering and technology**

B.E civil engineering

Completion year:- June 2017

C.G.P.A :- 7.4/10

#### **Shree K. P. Thakkar Institute of technology**

Diploma civil engineering

Completion year:- July 2014

C.G.P.A:-7.66/10

### **Internship**

#### **ONGC INDIA LTD. (MEHSANA ASSET)**

JUNE 2016 – AUGUST 2016

- Estimation of different building components (beam-column, walls, slab, plaster, drains).
- Planning of work line-up for a building to be restored (demolition to strengthening of structural members).
- Made computer added drawings using "AUTOCAD".
- Supervised the work site and learned to manage task force.

### **Project**

#### **B.E PROJECT:- CANAL ALIGNMENT AND DESIGN (IRRIGATION)**

- A sub minor canal line proposed to reduce the scarcity and to provide sufficient amount of water in the selected command area.
- A sub minor line is proposed to make as UGPL (Underground pipe line).
- went through training AT BISAG for Earthmap GIS software operation.

#### **DIPLOMA PROJECT:- APPLICATION OF NON-CONVENTIONAL SOURCES OF ENERGY**

- The project was focused over the use of any of the renewable source of energy as an alternate or back up source of power consumption of my college campus.
- And with the comparative study of all resources the solar energy was chosen to be the alternate power back up. On the basis of cumulative study we calculated an estimated cost for it.

## **Experience**

1) Site Engineer at Shree Umiya Construction

Duration:- 04/06/2019 To 31/06/2020

2) Civil Engineer at Gujarat RERA (REAL ESTATE REGULATORY AUTHORITY)

Duration :- 19/10/2018 to 11/5/2019

3) Junior Engineer at Devam Civil & Structural Services Pvt. Ltd.

Duration:- 01/06/2017 to 05/07/2018

- I have worked over different aspects of construction projects like CAD designing, Estimating, BOQ, Work Execution, legal passing and Quality Control.

## **Technical Skills**

- ❖ Good command over executing work on site and achieving maximum efficiency of work.
- ❖ Determines project costs by calculating labour, material, and related costs.
- ❖ Prepares engineering documents by developing construction specifications, plans, and schedules.
- ❖ Prepares engineering design by collecting and studying maps, drawings, and tests on soil composition, terrain, and related topographical data.
- ❖ Good at communication with both top and lower level of organization.
- ❖ A quick learner with an adaptability to change under the work circumstance.
