---

## Summary:

Technical marine engineering expert coupled with sales and marketing experience in real land and estate sector. Successful in maintaining business relationship and keep thorough understanding of engineering analysis and problem solving skills.

## Educational Qualification:

1998-2002: **B S in Marine Engineering** from **Tolani Maritime Institute** affiliated with **Birla Institute of Technology and Science** Approved by DG Shipping GOI.

## Work Experience:

I have served as;

2002: **Intern** with **Alfa Laval India Limited** in their oil water separator division for 5 months.

2002-2003: **Fifth Engineer Officer** with **Therica Shipping Corporation** on their FGN MV Container Carrier Surabaya Star with Gross Tonnage of 14500 T and Net Tonnage of 7250 T for a period of 3 months.

- Nature of duties involved carrying out watch keeping and routine maintenance in a machinery space with ITO SULZER ME developing 11400 BHP @ 150 RPM.
- Oversaw smooth operation of machinery while assisting senior engineer in carrying out routine maintenance of valves and pipelines; deck cranes and main propulsion and auxiliary machinery.
- Maintained inventory of machinery spares. Ensured safety as per industry regulations. Recorded smooth operation of machinery in Vessel's prime log book.

2003-2005: **Trainee Barge Engineer** with **Transocean Sedco Forex International Drilling Incorporation** on their Oil Drilling Rig F G McClintock.

This was a 3-step program leading to the rank of Ballast Control Operator, of which I successfully accomplished 2 steps.

### Step 1- Roustabout

- Nature of duties involved assisting barge engineer in carrying out routine maintenance of deck cranes, firefighting & fire prevention and emergency lifesaving appliances.

- Organised day duties such as fuel and water bunkering, rigging and stowing of machinery and various other equipment required to maintain smooth operation of Drilling and Exploration.
- Obtained work permits, Planned deck load management.

#### Step 2- Assistant Crane Operator

- Nature of duties involved assisting crane operator in operation and maintenance of pedestal deck cranes both electrical and mechanical.
- Inspected all cranes monthly for defective parts and/or malfunctions. Performed safety inspection of crane daily prior to use. Monitored helicopter operations. Deck load management.
- Assisted barge engineer during rig move operations and compliance with health, safety and environmental regulations at all times.

2005-2006:

**Fifth Engineer Officer with Varun Shipping Company Limited** on their FGN MV LPG/C Maharishi Vyas with GT of 15000 T and NT of 5100 T for a period of 7 months.

- Nature of duties involved carrying out watch keeping and routine maintenance in a machinery space with B&W Main Engine developing 14600 BHP @ 134 RPM.
- Acted as trouble-shooter under all emergency and non-emergency situations. Carried out maintenance of life saving equipment.
- Maintained inventory of chemicals, paints, grease, lube oil, bearings, spares and tools. Ensured safety and timely compliance with regulations at all times. Assisted LPG Engineer in maintenance of LPG compressors.

2007-2011:

**Self-employed as Real Property Consultant.**

- Nature of duties involved facilitation of land deals between parties at agreed prices for percentage commission.
- Exercised transfer and registration of title deed and all relevant paper work in the Dholera SIR in conjunction with land revenue office.
- Got required permits necessary to obtain conversion of land title from agricultural to developable i.e. "residential or commercial "use.

2011- 2014:

Hospitalization for surgery and post-surgery treatment.

2015:

Solo trekking expedition to Annapurna Base Camp, backpacking travel to South East Asia.

#### Supplementary Courses Pursued:

- Fire Prevention and Fire Fighting,
- Personal Survival Techniques,
- Personal Safety and Social Responsibility,
- Elementary First Aid and,
- Liquefied Gas Tanker Familiarization as approved by DGS.

#### On The Job Training Accomplishments:

- Confined Space Entry Module.
- Safe Handling and Working with Hazardous Material.
- Precautions against H2S Gas and its Harmful Effects.
- Scaffolding Erection Techniques.
- Fall Protection.
- Securing Work Permit.
- Forklift Operation and Safety Requirements.
- Fire Watcher.
- Energy Isolation.

#### Personal Particulars:

DOB: 5<sup>th</sup> September, 1980.  
Permanent Add: B 101, Sangath Pylon, koteswar, Bhat Motera Road, Ahmedabad, India 380005.  
Marital Status: Single.

#### Additional Skills:

Working knowledge of basic computer applications, amateur flautist, motorbike enthusiast having ridden over 50000 km on cross country and international routes.

#### Declaration:

I am an able and conscientious worker willing to work in the oil and gas and petroleum services industry with great zeal and enthusiasm. My continuous effort and willingness to learn and progress has earned me admiration from my seniors in the past. In my previous endeavours, I have worked with people from different nationalities and can relate well with people of all ages. In the year 2011, I was in a road accident that had left me with multiple fractures in my right foot and had rendered me bedridden for months from which I have achieved near complete recovery.
