PROFESSIONAL SUMMARY

As a clinical SAS programmer,

1. I have several years of experience working with SAS software. I am proficient in SAS programming language, and I have experience with a variety of SAS procedures, including PROC SQL, PROC REPORT, PROC FREQ, PROC MEANS, PROC IMPORT and PROC EXPORT procedure.
2. Developing and validating SAS programs that analyze clinical trial data. This involves writing code to transform raw data into analysis datasets, running statistical analyses, creating tables, listings and reports for study and ensuring that the results are accurate and meet regulatory requirements.

WORK EXPERIENCE

Post -: SAS Programmer   Aug 2023 - Present
Sumptuous Data Science Private Limited • Ahmedabad, Gujarat, India

Post -: Statistical Programmer - I   Dec 2021 - Aug 2023
